PROJECT

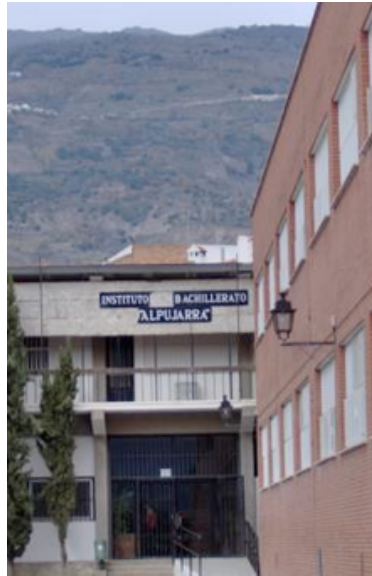

OUR PROJECT

Europe has a long history of offering sanctuary to refugees and through our project, all partners will inspire students, teachers and the whole scholar community to integrate refugee and migrant students in schools. We promote the idea of social inclusion trying to give migrants and refugees the chance to show their traditions, spread positive feelings and motivate unsuccessful students and make schools a living area to stop early school leaving.

Our aims are:

- create a WE ARE ALL! atmosphere in schools and grow tolerance, empathy and solidarity among students
- accelerate the adaptation process of students in schools
- decrease the number of illiterate students
- organise inclusive activities and promote cross cultural occasions
- create a friendly school and decrease the discipline problems in school
- motivating students fro creating new products, creating and designing things

SPAIN - ÓRGIVA

The Educational offer at our school includes Compulsory Secondary Education, Higher Secondary Education, Vocational Training Courses(Superior Grade in Touristic Management and Administration and Medium Grades in Business Administration, as well as Automated and Electrical Installations), Compensatory Educational Courses and Adult Literacy Courses. The total amount of students adds up to 700, although we also have 300 adult literacy students. Since 2010 we successfully run a Bilingual English-Spanish Program at the school in which more than a third of the total amount of Compulsory Education are enrolled.

ITALY - CASTELVETRANO

Our school is a big Comprehensive Institution. Our students are 1157 aged between 3-14 years old but the project is addressed to secondary school. The project aims to make students aware of their role within the European Union and to reflect on the meaning of being a European citizen considering different cultural heritage, multiculturalism and plurilinguism. We intend to promote the historical, archeological heritage of the territory where the Greek site of Selinunte is located. Specific attention will be focused on the cultural and folkloristic traditional Sicilian songs, dances and games. Our territory is located on the Mediterranean Sea, a crossroad of various dominations. Our school pursues a good, didactic, cultural and formative quality through a continuous monitoring of the most important variables quali/quantitative that enter into the training processes (Certification of competences, standardized tests and Certificate of Excellence in Coding Literacy). In our country we hveseveral citizens from different countries as migranta or refugees.
